

Soluboard®

The World's First Reduced Carbon PCB Laminate

Now with

**UL94
V0**

- Alternative to rigid glass-fiber + epoxy materials
- Naturally derived fibers + biodegradable polymer
- PFAS-free with non-brominated flame retardant
- 68% lower carbon + 37% lower density than FR-4
- Compatible with plated through-hole technology
- Recyclable at end-of-life without incineration
